

I am a current listener to K-LOVE radio which is a current FM translator station. I understand that allowing LPFM could force this station off the air. Please DO NOT allow this to happen. K-LOVE is a positive station that provides encouragement to hundreds of people in our area and I believe that it would not be in the best interest of our community to force it off the air. I think that would be a crime! With all the negative depressing things going on in our society, we all need somewhere that we can turn to and receive some positive encouragement. Thank-you.
